

# SUNWAYS BIG EVENTS

January 2023

This **BIG EVENTS** will be released monthly by email. To ensure timely delivery to your inbox, please add [info@sunways-tech.com](mailto:info@sunways-tech.com) to your address book.

## EXPO REVIEW

Sunways was present at InterSolution 2023 in January. Let's quickly review a few of the highlights!

The 11th edition of InterSolution, the number-one networking and trade fair for solar energy in the Benelux, was held on 25 and 26 January at Flanders Expo in Ghent, Belgium. Sunways exhibited a wide range of solar solutions for residential, commercial and utility-scale applications at Booth 8411.

In this fair, Sunways displayed its full products range, including its well-received on-grid solutions, single-phase 1-6kW and three-phase 4-12kW for residential, and three phase 15-125kW for commercial and industrial, as well as its highly anticipated energy storage solution 3-12kW for residential and commercial, innovative battery storage solutions and other core products that can fully demonstrate the strength of Sunways.

Belgium is one of the fastest-growing solar energy installations in Europe. Starting in 2020, the Belgian government plans to generate at least 1GW solar capacity annually. By 2030, there will be a cumulative capacity of over 20 GW. Sunways, with almost 30 years of inverter manufacturing experience, is actively engaging in the local market and helping to speed up the energy transition to a greener future.

## 2022 CUSTOMER SATISFACTION SURVEY

## SUN CLASS

**#8 What is Maximum Power Point Tracking (MPPT)?**  
 What is MPPT? Why is it essential? An MPPT exists to track the fluctuations in the panel's maximum power point so that the inverter can generate as much power as possible and improve the ROI of each solar panel. Click the link to find out more about how Sunways keeps your solar array operating as efficiently as possible with our MPPTs.

## GLOBAL DELIVERY

Finland

Czech Republic

Philippines

Poland

Spain

## UPCOMING EVENTS

### Solartech Indonesia 2023

March 2-4, 2023  
 Booth A2J2-11  
 Jakarta, Indonesia

### Solar Solutions International

March 14-16, 2023  
 Booth G21  
 Expo Center Amsterdam  
 Vrijburg, The Netherlands

### BePOSITIVE 2023

March 23-25, 2023  
 Booth 1J18  
 Carrepe Lyon, Lyon, France

### KEY ENERGY THE RENEWABLE ENERGY EXPO

March 23-24, 2023  
 Booth D4-035  
 Rimini, Italy

### HUNGAROTHERM-RENEO

March 29-April 1, 2023  
 Booth 204B  
 Budapest, Hungary
